"Gem" and toned Proofs. This piece is generally found in bronze-gilt; in gold it is of the most excessive rarity, and in silver very rare. Only a few gold strikes made. Both specimens purchased years ago from the great Brand collection. 2 Pcs.	127.50

Most Famous Lincoln Medal. 1863. Clothed, bearded bust r., in very high relief; SALVATOR PATRIAE, Rev. Eight line inscription within laurel wreath, commemorating Lincoln's death. White metal; 83.5mm, thickness at rim 12mm!!! King 244. Proof, slightly impaired by handling, particularly at center of rev. legend. Only 16 impressions made, before the die broke. It took an entire day's work, by two men, to make just one impression from the deeply cut dies by Emil Sigel, which resulted in most of the A.N.S. subscribers not receiving one of these massive, highly impressive pieces, and in the contracting group losing their shirts. Probably the rarest of the struck Lincoln medals, if not the rarest. Cheap at any price; the first we've had!	165.00
Wooden Medal Set. 1776-1876 Centennial Exhibition set of six wooden medals, in the original card case, with a "birds eye view" of the International Exhibition buildings at Fairmount Park, Philadelphia. Obv. underprint in "olive green." Plate letter "A" without flourishes. Top note on sheet; obv. plate "3." Strictly Good, with some claims to VG; seal faded and hardly visible, the edges slightly tattered, but clean looking, and still the first "Number 1" Twenty Dollars Legal, either of 1862 or '63, that we have seen, and at that, the rarest possible type and variety for the bill. Unique!	290.00

Silver; relatively thick planchet; the edge reeded. An original from the original dies, struck in 1796. Strictly Fine, claims to F-VF. AMERICAN NUMISMATIC ASSOCIATION

The American Numismatic Association, an educational and nonprofit organization, is the largest and most active numismatic body in the world. It invites and welcomes to membership all worthy persons seventeen years of age or over, who have a sincere interest in numismatics, whether they collect coins, paper money, tokens or medals, whether advanced collectors or only those generally interested in the subject without being collectors. The Association was founded in 1891, and has about 25,000 members from every state in the Union and many foreign countries. It was chartered for fifty years by Act of Congress May 9, 1912; renewed in perpetuity by Act of Congress April 10, 1962 and is a mutual organization for the benefit of its members.

All Association members, except Associate, receive the official publication, *The Numismatist*, without cost other than their annual dues. Membership applications should be accompanied by \$5.00 for the first year's dues and \$5.00 admittance fee. Annual dues are \$5.00. Nonmember subscription, \$6.00. Single copy, fifty cents. For application blanks, subscriptions or general information, write to the General Secretary.

The Numismatist is an illustrated monthly which has been issued continuously since its founding in 1888, consists of 144 pages or more in each number with subscribers in about sixty countries. NOTES ON EAST ASIAN NUMISMATICS

Wang Ching-Wei Puppet Regime's Propaganda Facsimiles

By

H. F. BOWKER

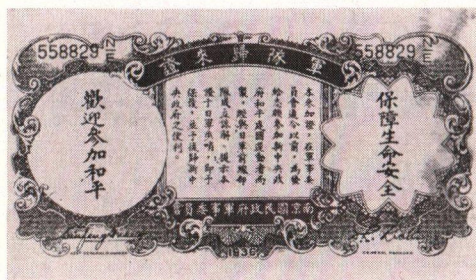

AFTER the nationalization of silver by the Nationalist Government of the Republic of China in 1935 paper currency largely replaced all denominations of metallic money. In the early years of World War II, prior to the later inflationary years, the paper notes of low denominations were to be found in the possession of the population generally and especially by those in the mili-

tary services. The facsimile notes described here were devised to simulate genuine paper currency which might be in the possession of military personnel induced to desert to the enemy after concealing it on their persons along with genuine currency.

The notes, whose general format was copied for this purpose, were those of the Central Bank of China of the one yüan denomination engraved and

printed by the firm of Thomas De La Rue, Ltd., of London and the five cent denomination lithographed by Union Publishers & Printers, Fed., Inc. U.S.A. The Chinese and English imprints were eliminated, and the paper upon which the one yüan denomination was printed lacks the watermark of Sun Yat-sen in profile and the silk fibers in the paper.

The color of the smaller facsimile closely resembles that of the original and both obverse and reverse are printed in only one color, green. The colors of the larger facsimile do not correspond closely to those of the original, being duller and more vermilion than red. The two square red Chinese seals of the obverse are reproduced in the color of the background, and the serial number 558829^N_E are a paler green.

The design of the reverse of the one yüan facsimile is reproduced from the original note, but the center vignette and the large figure "1" and its surrounding scroll work, the name of the Bank and the words of denomination were eliminated. In their places and in the blank circle through which the watermark could have been viewed in the original notes, Chinese inscriptions appear, of which the following is a fair translation:

Upper center: Troop free passage surrender certificate.

Right center: Guaranty of safe (passage).

Left center: Welcome to join (the force) of peace.

Center: This certificate is issued through an understanding that Japanese military outposts on the front lines (will pass) those who wish to join the New Central Government for peaceful reconstruction of our country. Please show this to the Japanese sentry to obtain protection and facilities to come to the New Central Government.

Bottom: Nanking National Government Military Council.

Curiously the reverse of the five cent denomination pass is an exact copy in every particular of that of the larger pass, even to having the identical serial number. This reverse is in the same color as the obverse, green, while the reverse of the larger pass is printed in dull brown.

I am indebted to E. Hank Barton of Falls Church, Va., for loaning the smaller specimen. My specimen of the larger pass was obtained from a dealer, a former resident of Japan where he obtained it. It is presumed that both were printed in Japan for use in China, but it is not known whether or not they were actually placed in use. If anyone has any knowledge on this point or has specimens of other denominations, the writer would appreciate being informed. Address communications to 1716 Gouldin Rd., Oakland 11, Calif.

Parents' Special for '63 A.N.A. Convention

Want to enjoy spending all your time at the A.N.A. convention although your children don't? For the benefit of parents faced with this dilemma, facilities are available for a very nominal daily fee, where supervised activities such as swimming, hiking, ball playing, horseback riding, archery, etc., are to be had.

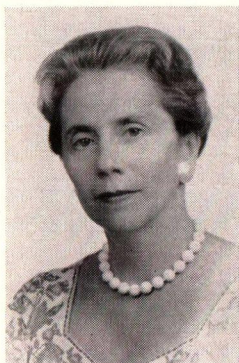

Children will be picked up in the morning at the Hotel Hilton, entertained (kept busy), fed and returned to the convention headquarters at the Hilton about 5:30 p.m. If interested, write to the Colorado Visitors Bureau, 225 W. Colfax, Denver 2, Colo., which will forward names of "camps" specializing in this type of service.

Afghanistan's Par Value. The International Monetary Fund and the Government of Afghanistan have agreed to an initial par value of 45 afghanis per U.S. dollar, with effect from March 22. The parity for the afghani in terms of gold is 0.0197482 gram of fine gold per afghani and 1,575 afghanis per troy ounce of fine gold.

Since November 29, 1961 the Administration has been retiring the \$5 and \$10 Silver Certificates, replacing them with Federal Reserve \$5 and \$10 notes. The silver thus released has been utilized for coinage of subsidiary coins. All demand for \$2 bills, which is very small, can be met by the continued issuance of U. S. notes, just as at the present time, according to Secretary of the Treasury Douglas Dillon.

Denver Convention Educational Program

Those who attended this popular feature of A.N.A. conventions the last several years can look forward to another pleasingly stimulating educational program at Denver. Plans for it are not complete and final as this issue goes to press, but enough can be reported to convince you that the usual high standards will prevail and that you should attend.

Mrs. Stefanelli

Mrs. Elvira Clain-Stefanelli, Associate Curator of the Division of Numismatics at Smithsonian Institution, will use her vast knowledge of world coinage to speak on "Art in Coinage." This delightful lady is so well known to numismatists that little need be said about her part in the program.

Charles F. Leich, a prominent physician in Evansville, is highly regarded as a numismatist in Indiana and the midwest. He is a keen student of the Civil War period, having a private museum relating to it in his spacious office, and will give an illustrated talk on "The Civil War and Its Currency." We can be sure of an interesting and unusual presentation from a man whose vitality, sincerity and sense of humor infects those who share — even briefly — his varied life.

Dr. Leich

To achieve geographical diversity, we will have Bryan O. Burke, Jr., as representative of the Golden West. Bryan has been active in organized numismatics at the local, regional and state levels in California, and was featured by *Calcoin News* in its "Who's Who" department four years ago. His subject has not been announced, but his wide interest in coins from the historical standpoint may be a clue as to his topic.

The program will be moderated by our genial and popular Treasurer, Harold R. Klein of Hinsdale, Ill. Further details will be given in the convention program booklet, including the date, time and room assigned to this feature event.

RELICS AND NUMISMATICS

While attending his table which occupied a rather obscure corner of a crowded bourse, Homer Hall of Lubbock, Texas, was approached by a man with a coin for sale. The man apologetically explained that none of the dealers in the room (which included some of the country's biggest dealers) thought it of much value but one of them had pointed out Hall as being interested in relics. The relic turned out to be the rare Idler Washington 50¢ copper with ornamented edges.

The story tells a lot about numismatics in United States today, and it is a kind of sad story. The new collector of the past ten years or so seems to be more concerned with the desire to possess objects rather than numismatic knowledge. The new dealer is so pressed to keep up with collectors' wants that he has no time to gain a thorough knowledge of his own profession.

Now no dealer can be expected to know all the rarities, but collectors do have the right to expect him to know the difference between a Colonial and a relic. And until he does know, the dealer can not expect to serve either the collector or numismatics. — HERBERT SHANER

THE REAGAN FUND IS GROWING. Thanks to you and your continued support, scholarships and awards will be given. More numismatic books will be published. Send your contributions to Lewis M. Reagan Memorial Foundation, Inc., 1201 Federal Reserve Bank Building, Cincinnati 2, Ohio.

FRANCE. Louis XVII, Pretender, 1785-1795. Louis Charles, son of Louis XVI and Marie Antoinette, never achieved his title of King. Despite a hundred and four year history of several imposters claiming the title, the French Court of Appeals closed the case in July, 1954, by declaring the Dauphin as having died in Temple prison in 1795. THE PHILIPPINE 1906-S PESO

By

DR. MENA CRISOLOGO, A.N.A. No. 46691

THE 1906-S peso is the coin most wanted by collectors of Philippine series. It was struck at the San Francisco Mint during the American regime. The number of pieces produced 1,617,629, according to the report of U. S. Mint. Neil Shafer states in his book, *United States Territorial Coinage for the Philippine Islands*, that 201,000 were struck.

One version of this coin's scarcity indicates that almost all of this date were stored unissued and later sold as bullion. There was another belief, men-

tioned by the late Dr. Gilbert S. Perez, that only a few hundred were placed in circulation while the remaining thousands were sold to India. Finally, it has been suggested that the pesos remaining unissued were shipped back to the U. S. Mint for melting, as a result of an Act of June 23, 1906 that all future silver pesos issued should be reduced in weight and fineness. The weight was to be twenty grams, and fineness, .800.

I have received numerous requests for this coin from collectors in the United States as well as in the Philippines, and to my several inquiries of coin dealers here and abroad, no 1906-S peso has been offered. So the coin remains scarce and today commands a high price. Because of this, Philippine peso fakes dated 1906 began to appear and reappear.

Figure 1 shows the fake and genuine peso actual size. The counterfeit is so cleverly executed as to be hard to differentiate from the original. The shield, stars and stripes as so exact in detail that they fool experts. The fake can be detected by observing the following points: Fake is 2 mm. smaller in diameter than the genuine; it is extremely underweight; it is thinner than the genuine; the reeding is irregular (See Figure 2).

The altered date (Figure 3) is rampant in the Philippines but can be detected easily by the naked eye. This specimen is the result of altering the five of the 1905-S peso to a six.

The 1906 peso in proof is frequently mistaken for the 1906-S peso by counterfeiters, although the proof coin does not bear the mintmark S near the rim under a small dot a distance to the left of the date (See Figures 4 through 7). Also, the proof coin is in great demand by young Filipino collectors. Complete 1906 proof sets consist of seven pieces, peso, half peso, and 20, 10, 5, 1 and half centavos. The total reported struck was five hundred sets (N. Shafer), although one numismatic writer (G. S. Vanderwende) says the number was 629.

Figure 8 illustrates the two types of U. S. Filipinas pesos with dates, weights and fineness indicated. These are genuine pieces struck by the San Francisco Mint but an alteration on the coin at right, the reduced peso, which originally was a 1907, 1908 or 1909. It is quite impossible to determine the genuine date as the last figure of the original date has been completely erased. A numeral six has been soldered in place of the erased figure.

In summation, the counterfeit coins are underweight and thinner than the genuine. Also, the edge serration differs from the genuine. Altered dates are easily detected.

Chile Restricts Gold Dealings. In May the Chilean Government passed legislation which restricts dealings in gold to commercial and state banks. The Central Bank was given the power to determine the conditions under which the Government Mint will produce gold coins. The institution was previously required to mint all gold offered. The Chilean 100 peso gold coin dropped slightly in price on the Santiago exchange as a result of the regulation.

NOTES & QUERIES

A Potpourri of Denver Convention Fare

The Denver Coin Club, host to the 72nd Annual A.N.A. Convention on August 7-10, believes that it has been and is doing all that is possible to make this the "best ever" convention. We are stressing "best" rather than "biggest," but do urge every one interested in numismatics to attend if at all possible. Those who have attended recent conventions know what, in general, to expect; to others, we say that this is the time to find out what you have been missing. Spe-

A.N.A. convention workers, are I. to r., Finance Chairman Dave Hart, Medal Committee Chairmen James and Charles Nelson (son and father).

cifically, here are a couple of the reasons for urging you to come to Denver.

We've practically "bought out" the U. S. Mint for the four convention days. Even though it will be at the height of Colorado's tourist season, we have been assured that as many as 2,000 convention visitors can be taken on guided tours. There is no promise of free samples, but 1963 sets may be purchased at the Mint.

A really excellent display of collections is shaping up, and more than a hundred prominent dealers will have their bourse tables loaded with choice items. And from what we've heard, Al Overton's auction will afford you a chance to acquire some choice, rare and unusual items.

The big "plus" of this convention is the chance to enjoy a wonderful Colorado vacation, either before or after the convention. We could not begin to describe the pleasures that await you in this vacation area, so have arranged with the Colorado Visitors Bureau, 225 West Colfax, Denver 2,

Colo. to send you information on Pikes Peak, Garden of Gods, mountain trips, vacation spots, rodeos, fishing, national parks, Buffalo Bill museum, amusement parks, camping facilities or other things. Just drop it a line, designating your special interest.

Many of you received a letter from Matt Klepp about the "patron" listing in the official convention program. Many responded. If you didn't, and read this soon enough to get your contribution of \$5 or more to him before July 9, you can still get your name listed among the patrons. Send your check, payable to American Numismatic Association, to Matt Klepp, 1532 Broadway, Denver 2, Colo.

Plan now, if you like the "best," to attend the Denver convention at the Hilton Hotel on August 7, 8, 9 and 10. — RUDY WEISS, Publicity

Emancipation Medal

The Shawnee Hills Medalists announce a medal commemorating the centennial of the Emancipation Proclamation. The obverse bears the Schmitz bust of Lincoln while the reverse has a broken chain going around the edge with 1863-1963 at bottom. Liberty torch splits the legend: THENCEFORTH AND FOREVER FREE; A LINCOLN (sig.). The 38 mm medal being struck in silver, bronze and platinum by the Harrisburg, Ill. company.

"Think"

Dear Mr. Bradfield:

Your appeal "Think" in the May issue is appropriate and well timed, and I fervently hope it will receive the attention of every single member of the A.N.A.

It should be borne in mind that ours is a hobby, first and last, which stimulates the endeavor to learn and study practically every facet of history, art, economics and other fields.

There seems to be a worldwide trend to transfer these idealistic aspirations into a petty commercial attitude. The tendency to a "Little Wall Street," with "bid and asked" quotations, with considerations of "investment" to be turned into a "quick buck," is abhorrent to a serious collector and numismatist.

Officers and governors of the A.N.A. should be leaders in the direction of serious numismatics, and not of questionable investments by smart methods. May every member vote for those

nominees only who stick to numismatic ideals as expressed in our A.N.A.'s constitution.

Rare Gold Washes Ashore

Knowledge comes in bits and pieces sometimes. Russell B. Wheeler reports that while traveling in the vicinity of Manta, Ecuador this spring, he was introduced to two fishermen who asked him to examine two gold coins they had found a few days earlier on the beach after an unusually hard storm. The piece was the very rare 2 escudo cob gold piece of the Cusco Peru Mint and dated 1698. The coin with the exception of a few abrasions was uncirculated which indicates that the coin had not traveled far before washing up on the beach.

round numbers run in Ken's family. Ken's father, L. Edward Huber, became the 13,000th member of the A. N. A. in March, 1946. Ken is a junior metallurgical engineer student at Lehigh University at Bethlehem. He is primarily interested in Flying Eagle and Indian Head cents. Over a period of six years and with the help of money earned through summer jobs in the Pocono resort area, he has completed a set—1857 to 1909-S. Both Ken and his father are members of the Bethlehem Coin Club.

C.N.A. Convention August 15-17

The Convention Committee of Canadian Numismatic Association wishes to emphasize the exhibit aspect of the 10th Annual Convention in Vancouver, B. C., on August 15-17—in the week following the A.N.A. Denver Convention. The Vancouver Numismatic Society is adding two new categories to the traditional exhibit

list. The "B. C. Numismatica" category was established for material relating to British Columbia, in honor of the first C.N.A. convention on the Pacific Coast. The second new section, "Canadian Coin Club Exhibits," was devised to encourage participation of the clubs in Canada and is the only section restricted to Canadians.

If you are planning to make an exhibit at the A.N.A. Denver Convention, our Exhibit Chairman Bob Eveleigh suggests you consider taking it on to Vancouver the following week. You will very likely qualify under one of the following categories: Canadian coins; Canadian paper money; U. S. coins; British Commonwealth; all gold; foreign coins; paper money other than Canadian; ancient and medieval coins; medals; tokens; and specialized and miscellaneous. Perhaps you will take home a Canadian prize medal for your trophy case. Address all C.N.A. convention queries to the Vancouver Numismatic Society, P. O. Box 2467, Vancouver 3, B. C., Canada. — TOM ROBINSON, Publicity

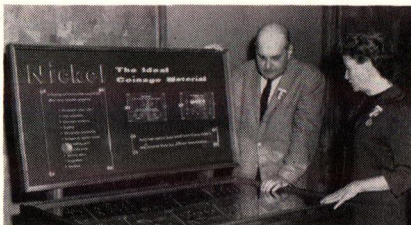

"The Legend of Rincón" Comment and Rejoinder

Dear Mr. Bradfield:

After some slight hesitation, I have decided to address this letter to you concerning Mr. Byrne's article, "The Legend of Rincón," in the May 1963 *Numismatist* (pages 611-615).

First, I am intrigued by the article's title: Is this a fairy tale narrative of Rincón's life?; if not, why do we find no reference by title and page to the supporting authorities for his account of Francisco del Rincón's lengthy itinerary, from 1536 to 1578? True,

METROPOLITAN EXHIBIT

U. S. Mint Director Eva Adams inspects an exhibit of pure nickel coins, prepared by the International Nickel Co., Inc., at the Metropolitan New York Numismatic convention at the Park Sheraton Hotel May 2 to 5. Cesar Borja of INCO explains highlights of the display.

page 5 of Burzio's *La Ceca de Potosí*, published in 1945, says "Su primer ensayador, don Alfonso Rincón, era hombre competente en su oficio, pues tenía una experiencia de más de 45 años en México, Lima y España," a statement derived from pp. 211-212 of J. T. Medina's still earlier work, *Las Monedas Coloniales*. On the other hand, I find no reference under Potosí to either of these gentlemen in Señor Burzio's publications of 1958, *Diccionario de la Moneda Hispanoamericana*, and *La Ceca de Lima*. The first ensayador of initial R attributed by the *Diccionario* to Potosí was one who flourished there about 1595-1605 while a second, Ramirez, lost life and properties for his crimes in the famous investigations of 1649. However, a Potosí 8-real piece in my possession struck in the style now associated by Burzio with ensayador A (for Alfonso?) and, apparently, the earliest issues of that Mint, bear what I realize, after reading Mr. Byrne's article, can only be an R, and not a misstruck B, as formerly supposed. Presumably, therefore, it is one of the "603,000 silver pieces . . . issued in (1575) the first year under the direction of Rincón" (at Potosí). Again, who or what is Mr. Byrne's authority for this very specific and important information? Other careless and contradictory data offered in this feature article, similarly, reflect none of the scientific approach supposed to characterize today's numismatist.

Again — as nearly as the illustration permits one to judge — the Mexico 4 maravedis depicted on page 611 of the May 1963 *Numismatist* is Nesmith's late series variety 7a, of which a drawing appears on p. 133 of his *Mexico City Coinage, 1536-1572*. The Byrne illustration shows this item's reverse (not its obverse), and may be attributed to the period 1545-1550 (not 1536-1538) since, as Nesmith tells us at the top of page 127 in his same work, "The scarce early series copper was undoubtedly struck only in 1542, when the viceroy Mendoza first ordered its production." I might add that this series shows a crude lion rampant on its reverse, whereas the lion passant on Mr. Byrne's coin is of the design assigned to 1545 or later from its initial association with the CHAROLVS inscription. On pages 41-42 of Nesmith's book we also learn that coppers of these kinds were struck over the years 1542-1552.

If I am wrong in any of these

respects, I shall be happy to stand correction. For one thing, it would be a pleasure to learn that my (presumably) earliest type Potosí 8-reales really does bear the R of (Francisco del, or else, Alfonso) Rincón (1575-1578), and not a blundered B, as Burzio has led me to suppose!

— ALFRED E. H. PETRIE
60 Stanley Ave.
Ottawa 2, Canada

Dear Mr. Bradfield:

In response to your letter requesting a rebuttal to Mr. A. E. H. Petrie's letter in which he takes issue with certain statements contained in my "Legend of Rincón" article appearing in the May issue of *The Numismatist*. If Mr. Petrie has exact information

GIANT SIZE MEDAL

At the recent Nebraska Numismatic Association convention A.N.A. Librarian John Gabarron was presented a special "medal." Kingsize to make up for medals John may have missed in the past because of official duties, the "medal" measures 18" across, has a three foot ribbon and a 14" pin and bears the seal of the Panhandle Coin Club. Frank R. Schell of N.N.A. designed the "medal."

that would help "clear the air" in this field, I am sure that every author would be only too happy to work together mutually to accomplish this end.

As stated in the article at its close I purposely mentioned that I would be happy to receive any criticisms or corrections if the party so interested would direct his query to me so that a mutual interest in getting at the "facts" could be established. I am quite sure, however, that Mr. Petrie is not so naive as to accept one or two single references of things so far in the past as "gospel" truth such as has been set down by Burzio, Herrera, Quadras, Medina, Raymond, Pradeau, Nesmith and others. Each has variations and disagreements with the "facts" of his predecessor. But, these disagreements have been in areas that all acknowledge to be "legendary" with no possible certainty or actual documentary evidence to prove each and every point made in their works.

Specifically, to answer Mr. Petrie's questions however, may I suggest that he re-read the reference he refers to — *Diccionario de la Moneda Hispano-americana* by Humberto Burzio and on page 225, column 2, paragraph 6, he will find that Burzio lists . . . "1575 . . . plata (silver) 603,000 \$. . . this point of information having been gleaned from the works of Cañete y Dominguez, pp. 82 y 83 . . ." In reply to his query as to the certainty that Rincón was the first assayer at Potosí, I again refer him to Burzio's works, where the author (Burzio) lists (and here is a point well taken) the "sigla de la ceca" (mark of the mint) and the "siglas de los ensayadores" (marks of the mintmasters) on page 226, column 2, in *strict alphabetical* order these mintmasters of the Potosí Mint. I am quite sure that even Mr. Petrie will not accept this order of occurrence nor do I believe that Mr. Burzio intended us to believe that each assayer was selected with a surname that was alphabetically in line with his predecessor. The listing appears in "A-B-C-D" order in this work by Burzio and we can be almost certain that so astute an archivist as Burzio never meant for us to accept this listing as an exact order of sequence of the ensayadores at this mint. Third and last, Mr. Petrie's question as to the "broken A" mint letter on his particular 8-reales piece. The crude Latin style "R" letter appearing on the Rincón pieces do, in many respects, resemble an "A" and I am

happy that Mr. Petrie can now attribute this to the first mintage at Potosí.

To close this "defense" it might be wise for us all to learn at an early stage of numismatics that we are all "in the dark" so to speak with regards to the exactness of much of our early numismatic history — for who can say with a certainty what exact spot or on what particular date Columbus (indeed, if it was Columbus) first landed in the Americas anymore than who can establish with any degree of exactness just what coin first left the "press" at the home of Hernandez Cortes in Mexico City in the spring of 1536?

With reference to the illustration appearing in the article showing the reverse only of the 4 maravedis, I would refer Mr. Petrie again to one of his own mentioned references, *The Coinage of the First Mint of the Americas at Mexico City* by Robert Nesmith where on page 19 at the bottom of paragraph 4, Mr. Nesmith states that "During Rincón's second lease which started on March 21, 1543, and ended by lawsuit on January 7, 1545" would seem to establish that Rincón was the mintmaster when these early copper pieces were engineered at the Mexican Mint. The error in tabbing this illustration with the dates 1536-1538 is the author's but so far as our historians are concerned, they were Rincón pieces during his second term as ensayador.

I would also like to point out that Mr. Nesmith in his monumental work also states that during the "Rincón era," and this term is used loosely, since four of the Rincón family worked in all the tasks at the Mint at varying times and had what might be termed a "throttle hold" on the production of coins at these mints, and in each instance contrary to the edicts of the crown pertaining to operation of viceroynalty mints. This malfeasance of tenureship compounded with the missing dies and punches which have never been found added to the confusion of the exactness in reporting the official sequence of each coinage.

Each of the aforementioned authors in this article who have handed down his findings in this area of numismatics have done a most notable task in their individual research. I ask that others submit their findings to these men that are still amongst us in order that perhaps, in some small way, as has been the case with your correspondent, we may correct and

add to the already sound knowledge that has been set down by the Burzios, Herraras, Nesmiths, Quadras, Medinas and others.

Three Session Auction For Denver Convention

According to reports from Al Overton, a truly great auction sale is in the making for the Denver A.N.A. convention, August 7-10. The material to be offered will run the gamut of U.S. coins from half cents to fifty dollar gold pieces, from great rarities to rolls, and including Canadian coins, various medals, paper money, tokens, crowns of the world, ancients and pattern coins. The material in each of the three sessions is well diversified for the benefit of those who can attend only part of them.

Even a summary listing would require much space, but the number of early coins of various issues is notable. A number of complete sets are listed, but duplicate single coins will be offered to those who need only the rare, scarce and seldom offered pieces. The first session starts with thirty lots of colonials, and includes such rarities as Leshner and Colorado dollars, Mormon gold and paper money, a stella and a paper money steel plate.

Pattern are early in the second session, followed by one lot of Indian Territory tokens, early and proof U.S. coins, ancient Greek silver, U.S. and foreign gold coins, and hundreds of lots of other desirable items. The final session is mostly of U.S. coins, including a dozen lots of mis-strikes, a Pan Pacific round \$50 coin, nineteen \$3 coins, and many lesser rarities which are in great demand.

The catalogs will be ready about July 1 for \$1.00 which will include a list of the prices realized. They will be available free to those who register at the convention. For further information or a pre-convention catalog, write: Al Overton, P.O. Box 893, Pueblo, Colorado.

Medal of World War I Base Hospital Unit

At the beginning of World War I the Pennsylvania hospital unit (Base Hospital No. 10 U.S.A.) was activated for duty. This unit had an honorable history back to its origin in Philadelphia in 1751. Little difficulty was encountered in recruiting officers and

men to complete its quota and place it on a wartime basis.

On May 7, 1917, the managers and ex-residents of the hospital gave a farewell dinner to the officers of the unit. At that affair Dr. George S. Crampton presented each officer with a silver medal bearing the hospital seal, name of the unit, and appropriate dates on the obverse. The reverse was inscribed with the officer's name. Subsequently, replicas in gold

Hospital Medal

were given to wives of officers serving overseas. The unit left Philadelphia for France on May 18, 1917.

A careful search by members of the Institute of Heraldry, U.S. Army, uncovered no authorization for awards to affiliated civilian hospitals serving with the AEF in France during World War I. Therefore, it is presumed that the illustrated medal struck in copper with a blank reverse was a trial piece for the gold and silver presentation pieces. This presumption is strengthened by the fact that the only mention of this medal in the unit's history is in the precious metals. There is no record of copies in copper or bronze for enlisted men. Any further knowledge on this copper medal would be appreciated by the writer.

(Much of the information on the above came from *History of the Pennsylvania Hospital Unit (Base Hospital No. 10 U.S.A.) In the Great War*, Paul B. Hoeber, New York, 1921. Many thanks to Stanhope Bayne-Jones, M.D., Brigadier General, U.S. A.R. Retired, for his able assistance and research.)—BERNARD KEITH, A.N.A. No. 35311, 18440 Fielding Ave., Detroit 19, Mich.

TOREX

The second Greater Toronto Coin & Stamp Exhibition, now called TOREX, will be held September 26-28

C. B. Jarvis

at the Royal York Hotel in downtown Toronto. The move from last year's site was made for a greater prestige location and for easier access to local visitors and to those coming into the city from a distance. The Royal York is an official stop for airline limou-

sines, buses, two railroads and several local transportation services. There are parking facilities for some 2000 cars within a block. It is the largest hotel in Canada, with 1650 rooms at reasonable prices, and is located near theaters, restaurants, night clubs and Toronto's business district.

The exhibition will be centered in the 15,000 square foot Canadian room, which is expected to house all bourse tables against the walls, leaving the center of the room for exhibits. This spacious new modern room, the largest of its kind in Canada, has adequate lighting and every facility to make it ideal for this exhibition. The Ontario room, which seats 350 in luxurious comfort, will be used exclusively for coin and stamp auctions. Security will be in the hands of Pinkerton's again. Top publicity is assured, and it is expected that last year's attendance of 5,500 will be nearly doubled.

Further information may be obtained from Cale B. Jarvis, Suite 1109, 62 Richmond St., W., Toronto 1, Canada.

ISNA. Convenes in College Student Center

Probably some were skeptical of going to a college campus for a coin convention, but those who attended the fifth annual Indiana State convention at Muncie, May 17-19, found the most adequate and delightful facilities imaginable. The modern new Student Center of Ball State Teachers College had air conditioned and well lighted space for all activities, fine food and refreshment facilities, and spacious and comfortable lounge areas. Not enough rooms were avail-

able in the Center for all out of town guests but they didn't have far to go for a choice of hotel and motel accommodations.

Approximately 2500 attended and enjoyed their choices of the 52 table bourse, the 28 tables of fine and varied exhibits, the educational forum conducted by Chester Krause, Charles Slade's auction, and the Saturday evening banquet. After a delicious meal, Admiral O. H. Dodson, USN, Ret., Director of the Money Museum of the

National Bank of Detroit, delighted the banqueters with accounts of his numismatic experiences. The newly elected I.S.N.A. officers were introduced and inducted into office by honored guest C. C. Shroyer, A.N.A. President, as follows: President Marion Watson, Vice Presidents John Deren and Charles Hathaway, Sergeant-at-Arms John Shaffer, Secretary Carl Simons, Jr., Treasurer Ray Fiscus, and Directors Richard Anderson, Wayne Jackson, Jake Lamarr, Burnell Ault, Jack David, Harold Taylor, F. W. Clements, William Pukall, Darrell Miller and Neil Certain.

Credit for the successful convention goes to Co-Chairman Howard Creps and George McKnight, and their committee chairmen Mildred Fager, Darrell Miller, Herbert Riley, Paul Robinson, Harry Shroyer and Robert Wilson. William Irwin, President of the Muncie Coin & Stamp Club, was in charge of the banquet and acted as master of ceremonies.

Cleveland Museum Shows Part of Norweb Collection

British gold coins covering a period from 50 B.C. up to the reign of the present Queen Elizabeth are currently on display at the Cleveland Museum of Art. They are one significant segment of a collection of more than 25,000 coins assembled by Mrs. R. Henry Norweb, A.N.A. No. 1762, who placed the eighty gold coins at the museum as an extended loan.

The earliest examples in the exhibition are so-called "ring money" used by the ancient Britons before the Roman occupation of England; the most recent are contemporary. The selection of coins on display includes

many of the most famous of the kings and queens of England; no attempt was made to show the almost complete series in the Norweb collection. Aesthetic standards were used for selecting the coins to be shown in one specially designed case.

The design of the coins is of considerable interest for students of both art and history. In many instances the portrait quality is extraordinarily high and several groups show portraits which illustrate the reigning monarchs over a considerable span of years. Among the latter are the first Queen Elizabeth, shown in five portraits covering a period from 1558 to 1601; Victoria on four coins from 1839 to 1893; and the unhappy George III, who is shown on four coins issued between the years 1761 to 1820.

Mrs. Norweb's position as an authority on coins and coin collecting is an international one. She has appeared before the British Numismatic Association at a recent meeting in the British Museum and she is Chairman of the United States Committee of the American Numismatic Society. The Norweb collection is ranked among the world's most important.

Larcenies

William Nelson, 4830 Schubert Ave., Chicago 39, Ill., reports the loss of about \$5,600 worth of coins to burglars who raided his home the night of March 23. His collection of foreign and domestic pieces were gathered over a period of sixty years. Among the items stolen was a San Francisco silver bar 999.5 fine, weighing 6.05 oz.

The home of Elbert S. Pardick of Mill Hall, Pa. was looted of \$3,000 worth of coins and jewelry on the night of April 20. Two of the pieces are identifiable: An 1847 large cent countermarked with the letters WEN and 1874 German 5 mark box taler showing Albert Koenig Van Sachsen facing right on obverse and reverse bearing German arms with DEUTSCHES REICH 1874 FUNF MARK around edge. Any collector who is offered either of these pieces for sale should notify Pardick or the Pennsylvania State Police. Such information could lead to the recovery of the entire collection and perhaps give law enforcement officials the kind of break which would help them arrest the rising tide of coin thefts.

The importation of Indian bank notes has been reduced from seventy-five rupees to twenty rupees per person.

INTRODUCTION

One of the more confusing aspects of the Aragonese medieval coinage is that fact that there was a constant exchange of kingdoms between the various members of the royal Aragonese families. Such exchanges were frequent, sometimes by agreement and sometimes by conquest. The confusing point is that so often the rulers had the same name or the same ruler had a different sequence number in the various kingdoms. For example, Peter III of Aragon was Peter I in Sicily and Peter II in Barcelona. Then there is the problem of the two Martins, father and son, where we have the unique situation of the son being succeeded by his father in Sicily. Then too, we have the case of the two Jameses, both at one time called James II. One was a younger son of James I of Aragon and ruled mainly in Majorca while the other was a younger son of Peter III and the nephew of the other James. He ruled for a time in Sicily and then gained the throne of Aragon itself. Both ruled about the same time, in the same areas, and struck coins that except for minor differences are identical (considering denomination variations). Thus, it is rather important that the reader be acquainted with the historical background of this period so that he may localize these kings properly as to time and place in the series.

Majorca was acquired by Aragon's greatest King, James I, from the Moors. Rather than incorporating it directly into Aragon, James preferred to rule it as a separate dependency. Then at his death, he passed Majorca and certain other

territories to his younger son James rather than to Peter III who succeeded in Aragon proper (and Barcelona, Valencia). However, James I did not issue coins for Majorca, leaving this to his son who ruled as James II of Majorca. James issued a fairly large series of coins including a real de oro, double real, real, half real, dobler, and diner (dinero). The coins were similar in that the King's name and titles formed the obverse legend (+IACOBUS: DEI: GRA: REX: MAIORICARUM, on the real de oro, as an example) with facing seated royal figure in this case, but more commonly on the lesser denominations, a facing crowned bust. The reverse legend continued the titles (again on the real de oro, +CO: ROSIL: ET: CERTANIE: DNS: MOSTISP) with the "Majorcan cross" in its patriarchial form as type. However, on the silver and billon coins, these crosses were found in their single barred form. The titles on the reverse merely continue those of the obverse and refer to the mainland possessions of the Majorcan ruler including Rousillion and Montpellier. In fact, the large silver coins initially struck by James I for Montpellier are believed to have been continued by his son. However, in our lists, they are only listed under James I.

The "Majorcan cross" is characteristic of the island's coinage and was the standard reverse type. It consisted of a Calvary cross with the lower limb extending to the edge of the coin but with the other three limbs reaching only to the legend.

James II of Majorca had a difficult time retaining his little king-

dom and for a few years was driven from his throne by Alfonso III of Aragon. However, he returned at Alfonso's death and passed Majorca to his younger son Sancho. Sancho in turn passed it to his nephew, James III. This unfortunate king was unable to hold Majorca against Peter IV of Aragon and in 1343 lost the crown. Peter added Majorca to his dominions but continued the separate coinage. The over-all types and inscriptions are very similar to those of the independent ruler but generally they have some mention of Aragon in the obverse legend. Sometimes it is only a letter or so, but the mention is present and serves to differentiate these later issues from the earlier ones. The Majorcan series continued long after the period covered by this medieval listing.

Alfonso V struck a small coin for the island of Minorca, the only Aragonese king to do so in our lists. It is not rare but in form is typical of the Balearic series with the exception of the name.

Sardinia was acquired by Aragon from the Pisans in the year 1297 through the influence of the Pope. Aragon retained the territory for many years but throughout the entire time, the island brought nothing but trouble to the Aragonese kings. It was in semirevolt for years and drained the resources of the kingdom. Martin the Younger, who had been the hope of Aragon, was killed while fighting the Sardinian rebels. All in all, Sardinia was somewhat of a liability rather than an asset but the Aragonese clung to the place in spite of all throughout this period in history.

Distinctive coins were struck for Sardinia by the Aragonese in much the same manner as they issued special coins elsewhere. The Sardinian issues, at least during the medieval period, did not use royal busts as types but rather the obverse almost always bore a shield with the arms of Aragon (sometimes a lozenge). The reverse had a simple equilateral cross. Both types were generally inclosed in a decorative octofoil. Rosettes were very commonly used and are almost characteristic of the series when taken with the other types. As a rule, five rosettes were placed on the obverse, one above and two to either side of the shield, and four on the reverse, one in each angle of the cross. In later times, the shield was sometimes crowned but not during the earlier period. The obverse legend had the name of the king, usually some mention of Aragon, and generally closed with SARDINIE (or variant). The reverse legend also was characteristic of the Aragonese series and read (when present in full) +FORTITVDO ET LAVS MEA DOMINVS although it was abbreviated in many different ways. This legend was not always present on the smaller coins and the reverse legend in these cases was usually a continuation of the obverse.

The series of Valencia does not really belong in this section but Heiss in his lists placed it just before the Majorcan issues. Thus we have included in the lists a brief cross reference to the coin lists indicating the Aragonese kings that struck coins for Valencia. The main details were given in the Aragonese section proper.

NOTES TO THE COORDINATION CHART FOR THE BALEARIC ISLANDS

1. Based on Heiss and Vidal Quadras y Ramon as the other similar charts in the series.

2. There is a question of denomination between Heiss and V.Q.R. in that Heiss refers to certain coins as "reals" and "double reals" while V.Q.R. prefers to consider the larger coin, Heiss' double real, as a "real" and calls the smaller coin a "half real." They are listed both ways in our chart so the reader must remember that only two coins are involved and a matter of terminology makes it appear that there are three coins listed.

HISTORICAL NOTES AND COIN LISTS

The medieval Christian history of Majorca began in 1229 when the Aragonese King James I reconquered the island from the Moors who had occupied it since the Visigothic collapse in the early Eighth Century. Two years later, however, James traded the island to Peter of Portugal (Peter of Portugal was the second son of Sancho I and was the husband and heir of Aurembiax of Urgel. At one time Peter held high office in the Kingdom of León in addition to his other honors.) in return for the more strategic area of Urgel in Catalonia. The Aragonese returned again to Majorca in 1244 when the Portu-

guese traded it back for certain territories in Valencia. Ten years later Peter again assumed rule in Majorca and the Portuguese controlled the island until his death. By 1257 the Aragonese were in possession of Majorca and James held it until he died in 1276. Neither Peter or James struck special coins for Majorca.

James II of Majorca (1276-1287, 1291-1311) spent the early part of his reign defending his little kingdom from his elder brother Peter III of Aragon and was successful until 1287 when his nephew Alfonso III, Peter's son, forced him from the Majorcan throne. Alfonso con-

trolled the island until he died and James was able to return to his kingdom where he ruled until his death in 1311. Since his eldest son had entered Holy orders, he was succeeded by his second son, Sancho.

Sancho (1311-1324) had an uneventful reign with the exception of raids by the Barbary pirates who took toll of all ships entering his harbors. Sancho died of asthma in 1324 and was succeeded by his nephew James.

James III (1324-1343) accepted the Majorcan throne and at the same time acknowledged allegiance to Aragon. In spite of this move, trouble soon developed with the mother kingdom and wars continued until 1343 when Peter IV of Aragon declared the Majorcan throne vacant. He then invaded Majorca and assumed it for himself. Majorca as a separate kingdom disappeared but the Aragonese kings issued coins for many years after the conquest.

NEVADA CENTENNIAL MEDAL

The Nevada Centennial Commission has authorized the striking of a medal for its 1964 Centennial celebration. Except for a limited number of presentation pieces in silver the crown-size medal will be struck in bronze. The Seal of Nevada will be used on the obverse and the outline of the state, superimposed over the Nevada star, appears with 36 stars, depicting entry into the union, on the reverse. The medals will be struck by Masterpiece Medallions, Inc. of California. Distribution plans will be announced later.

Central States Convention

Even the weather coöperated with the Chicago Coin Club to achieve Central States Numismatic Society's three day convention the last weekend in April which evoked praise from just about everyone who attended. Formal registration, at \$1, was about 2,150 on the eleventh floor of the Sheraton-Chicago Hotel, where the ten thousand square foot Exhibit Hall housed the exhibits. On this floor also were the three-session auction by Rare Coin Company of America, the very popular hospitality room where coffee and refreshments were served freely by the ladies, the well attended educational program, the Society's annual business meeting, and lesser activities. One floor below, in the spacious East room and the Tally-Ho room, was the bourse of some hundred and forty dealers from all parts of the country. Admission to the bourse was limited to those who were registered, but what a busy place it was! The Saturday evening banquet in the Crystal Room consisted of music by a roving string trio, a delectable dinner, and the presentation of awards.

The B. Max Mehl Memorial award, by the Professional Numismatists Guild, for the best in show exhibit was won by August F. Hausske, who also received the Paul F. Schilling Memorial award, by Irving Moskovitz, for the best exhibit of U. S. coins. Best in class scrolls and three medallic awards went to the following ex-

hibitors: U. S. coins — August F. Hausske, Irving Moskovitz, Edward J. Lee and Gordon Gill; coins prior to 1500 A.D. — Richard F. Shaft, Philip J. More, George B. Hatie and Mrs. Lorraine Davis; foreign coins after 1500 A.D. — Philip L. Budd, Donald Doswell, Fred C. Claffey and Theodore H. Rich; paper money — Julius Turoff, I. T. Kopicki, Fred R. Marckhoff and James T. Harris; medals, tokens, orders and decorations — Charles J. Ricard, Dr. George Podlusk, Walter P. Huber and A. R. Birkholz; miscellaneous and specialized — Mrs. Ruth V. T. Hammel, Mrs. Doris Martin, Dr. James O. Sloss and Arlie R. Slabaugh; juniors — Howard B. Eisenberg, Jack

A plaque in token of appreciation was presented to S. Wilson (center) by Glenn B. Smedley at l. and Michael M. Dolnick at r.

CSNS Medals of Merit were presented to Past President Ray O. Lefman at l., and Convention Chairman Harry X. Boosel at r., by Elston G. Bradfield, Chairman of the Medal of Merit Committee. Other committee members not shown were E. C. Gerber and I. Kopicki.

Among those largely responsible for the well run CSNS convention were, l. to r., Educational Program Chairman Glenn B. Smedley, Chicago Coin Club President Michael M. Dolnick, Bourse Chairman Philip J. More, and Treasurer Nathan N. Eglit.

Lee, Kathleen Flynn and Denis G. Anderson. Beautifully mounted scrolls expressing appreciation for the showing of noncompetitive exhibits went to Dr. John Davenport, Art Lovi, Mrs. Lois Otis, Arlie R. Slabaugh and Leo G. Terry.

The Society honored Harry X Boosel and Ray O. Lefman, both Past Presidents, by presenting its Medal of Merit to them. The *Numismatic News* sponsored Nathan Gold Memorial award for the advancement of paper money collecting was presented to Arlie R. Slabaugh.

Perhaps the one note of sadness of the convention was due to the absence of genial President F. Stevens Epps,

who was convalescing from eye surgery in the east. In his absence, immediate Past President Ray Lefman presided at the business meetings.

Committee chairman for the successful convention included General Chairman Harry X Boosel, Mrs. Marjorie Baker, Nathan N. Eglit, Hugh M. Knight, Philip J. More, J. Thomas Nolan, Herbert Shaner, Arlie R. Slabaugh and Glenn B. Smedley. Michael M. Dolnick, President of Chicago Coin Club, was ex-officio member of the Committee.

The 1964 convention is scheduled for Kansas City, Mo. The Chicago Coin Club has been planning the 1965 convention for some time.

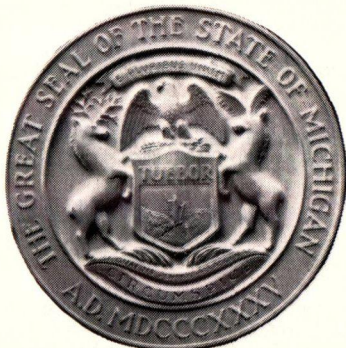

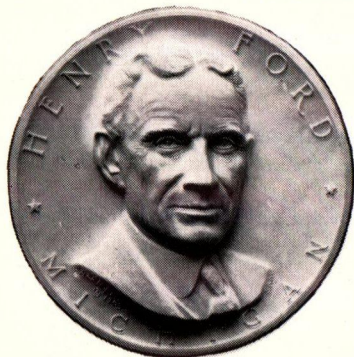

MORE GOLD RESTRIKES ENTER MARKET

Collectors are cautioned to watch out for restrikes of the following gold coins:

Five marks of Kaiser Wilhelm II, Ludwig II of Bayern, Hamburg issue with coat of arms, the Kings of Wurttemberg, issue of Albert of Saxony. There are ten gold marks of Wilhelm I, Wilhelm II, Ernst August of Saxony, Wilhelm II of Wurttemberg, Frederick of Prussia. Twenty marks: Wilhelm II in two varieties—one in uniform, Wilhelm II of Bayern, Ernst August of Saxony, Kaiser Friedrich, Kaiser Wilhelm I, Kaiser Johann of Saxony, Kaiser George of Saxony, Wilhelm II of Wurttemberg and the Hamburg issue with the coat of arms.

These are being marketed through a post office box in New York. The Professional Numismatists Guild warns that the buying of restrikes will only result in more being made with inevitable devaluation of legitimate coins. — A. KOSOFF

MICHIGAN STATEHOOD MEDAL

The Michigan Statehood medal, sixth in a series, commemorates the one-hundredth anniversary of the birth of Henry Ford, 1863-1963. The Michigan Historical Commission selected Henry Ford to represent the state. The Ford Motor Company assisted sculptor Ralph Menconi in preparing the models. 10,000 serially numbered pieces will be issued in silver and an unlimited number will be struck in bronze. Presidential Art Medals, Inc. is distributing the medal through coin dealers.

Entertainment Plans

A.N.A. DENVER CONVENTION

We are receiving numerous inquiries regarding the entertainment planned for the A.N.A. convention in Denver, August 7-10. Yes, there will be a number of events, not only for the registrants, but also for the wives and children as well. So, men, be sure that your wives read this. We know that they will be pleased with the variety of things we will offer at the convention.

Tuesday, August 6 — The first social event planned will be an Early Bird Social Hour, for those arriving early. This will be held at the Hilton Hotel Tuesday evening from 7-8 p.m. It will have a pay bar, and will afford everyone an opportunity to get together with friends, see who is at the convention, and to make new friends. We are sure that this will be a most enjoyable hour.

Wednesday, August 7 — There will be a tour of the world-famous Air Force Academy, situated near Colorado Springs. This tour will leave the Hilton Hotel in Denver at 11:00 a.m. The price will be \$3.50 per person, payable either with your pre-registration or at registration in Denver. However, this tour has been limited by the Academy to approximately 350-375 persons, so it is advised that you register and request this tour at your earliest convenience.

The group will arrive at the AFA in time for lunch in the Cadet's Mess — an unusual privilege in itself that is not always granted to those touring the Academy. The price of the lunch there will be \$2.00, payable at the Mess when you eat. The food is delicious. Then there will be an extensive tour of the Academy grounds and buildings, accompanied by experienced guides. The busses will leave the Academy grounds in time to be back at the Hilton Hotel in Denver at approximately 5:00 p.m. Reservations must be made by 7:00 p.m. Tuesday evening.

Thursday, August 8 — This is the day for the ladies at the convention. They will have a brunch at 11:00 a.m. at the beautiful Petroleum Club, atop the Petroleum Club Building, only one block east of the Hilton Hotel. The view from their large windows is a fascinating one, with the whole city of Denver spread before you with the mountains in the background. The brunch will be \$2.50 per person. Prior to the lunch, there will be a sherry pouring. The brunch is personally supervised by the Club's famous and talented chef, who has won many awards both for his cuisine and his originality. Following the brunch, Molly Lee Beresford, an outstanding professional in the field, will give a book review that will be light, amusing, and highly entertaining. We are certain that the ladies will consider this one of the highlights of the entire convention. They will be away by approximately 2:00 p.m., and the rest of the day will be free for shopping, sightseeing, or what have you. Reservations must be made by 6 p.m. Wednesday at the latest, on a first-come, first-served basis because of the limit of approximately 350.

Friday, August 9 — Two fascinating tours are planned for Friday, and it will be very difficult for many to decide which one to take.

Starting in the morning, a tour has been planned to the famous old mining town of Central City. Besides the authentic and historic atmosphere that has been carefully retained there, Central City is the summer home of opera, with stars of the opera world performing at the historic old Opera House during early summer. Later each summer, at the same Opera House, one of Broadway's most successful plays of the current season is presented with the original Broadway cast. It is quite possible that while browsing around in Central City you will see some of the famous Broadway stars who make their homes in Central City while performing there. Perhaps you should bring along your cameras and your autograph books.

This tour will leave the Hilton Hotel at 10:30 a.m., arriving in Central City in time for lunch. You will be on your own, as no special luncheon is planned, but there are many places to eat. The Mayor of Central City was in town last week to confer with us regarding the tour, and he assured us that not only all of our favorite eating places will be open this summer, but that several new ones have been added, all with excellent food and service and several with Old West atmosphere. There will be little trips available while you are there, to the Museum, the Opera House, the old Teller House, etc. The latter is an

exciting experience in itself, taking you back a century in time. The original furnishings of this old hotel have been carefully preserved, including the rooms once occupied by President U. S. Grant, President Teddy Roosevelt, and other notables. Also, the well known "Face on the Barroom Floor" is still to be seen in the bar. The price of this tour will be \$3.00, and will include a ticket of admission to the museum.

There will be time to see everything you wish, including browsing in the antique shops or perhaps a short jeep tour to nearby gold mines or the fascinating nearby ghost town of Nevadaville. These things will be up to you, and arrangements can be made quickly and easily after you reach Central City. Incidentally, the town rests upon the mountainsides, ladies, so may we suggest that you bring your walking shoes and a sweater so that you can enjoy yourself in the maximum of comfort. Reservations for this trip to Central City must be made no later than 7 p.m. on Thursday.

The busses will leave Central City for Denver at 3:00 p.m. However, if there are enough who wish to return earlier, we have made arrangements for a bus to return at 2:30. Then, if enough wish to linger a bit longer, we will have a bus remaining there until 3:30. The choice will be yours.

The other Friday tour that is sure to be an equal favorite is that of the well-known Coors Brewery, \$1.00 per person, and busses will leave the Hilton Hotel every half hour, 12:30-3:00 p.m. They have asked us to limit this group to about 250 people. Unfortunately, Coors' outstanding and famous pottery and porcelain factory will not be open to the tour, as it is making porcelain parts and nose cones for the current space program. After your half-hour tour of the brewery itself, you are cordially invited to relax in their beautiful tap room, and sample their product as their guests. Reservations for this tour must also be made by 7:00 p.m. Thursday.

Saturday, August 10 — This will be a day to rest up from your Friday activities, or to take one of the short local tours. Then, comes one of the highlights of the social side of the convention — the banquet. From 6-7 p.m. there will be a social gathering with a pay bar in the Grand Ballroom, followed by the banquet promptly at 7 p.m. We have planned a short, streamlined banquet program, with a minimum of speeches, etc. The chef and staff are busy conferring with our committee and plan to come up with an outstanding dinner and a possible surprise or so for you. The price of the banquet will be \$7.50, and we assure you that this dinner will be cheap at the price.

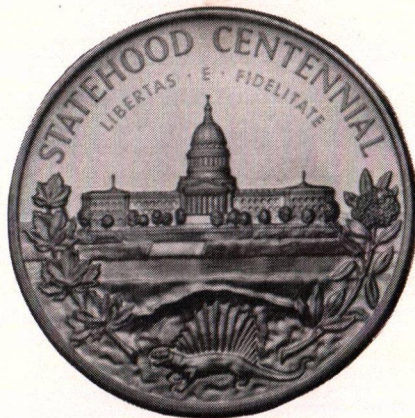

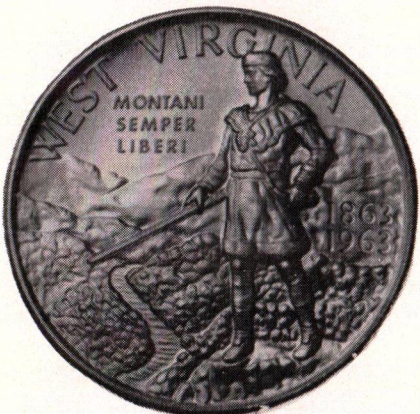

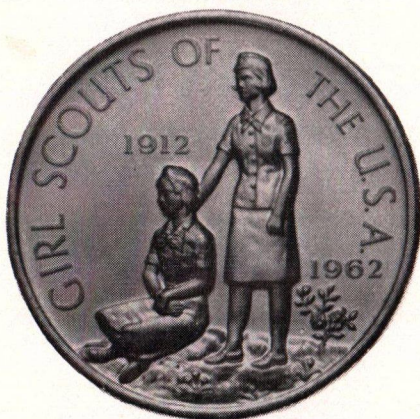

The banquet will be over by 9:00 p.m., at which time there will be a break while the hotel staff rearranges the Ballroom. Then at 9:30 p.m. it will again reopen for us, with tables arranged in cabaret style for visiting, dancing, or just listening to music until midnight. We assure you that this will be an evening that will be long remembered by all fortunate enough to be present.

Other Tours — Tours of the Denver Mint, one of the largest in the world, have been arranged. These will be made daily, Tuesday through Friday. Each day the first tour will be at 7:45 a.m., and they will continue each hour thereafter until the final tour each day at 2:45 p.m. There is no charge for the Mint tour. To avoid possible disappointment, please write to Matt Klepp, 1532 Broadway, Denver 2, Colo., and request the time you and your family or group wish to make the Mint tour. Everyone will be accommodated, but if you have a time preference, it will be best to request it well in advance because each hourly tour is limited to approximately 70-75 persons. Incidentally, the Denver Mint is located on the edge of the beautiful Civic Center of Denver, just a couple of blocks from the Hilton Hotel.

Just to be sure that everyone has an opportunity to see our beautiful city, the host coin club and those of the surrounding area have gone together to offer tours of the city. These clubs will be your hosts for these city trips, and of course there will be no charge for them. These tours will leave the Hilton Hotel on Wednesday-Thursday-Friday at 10:00 a.m. and at 2:30 p.m. On Saturday there will be only one city tour offered, at 10:00 a.m. The city tour, accompanied by an experienced guide, will cover most of the outstanding and beautiful areas of the city — the government buildings, downtown Denver, our beautiful parks, and some of the more beautiful residential districts of the city. We are sure that this capsule view of Denver will be a favorite with everyone who makes this 1½ hour trip.

A few words in general about the convention entertainment. Information concerning pre-registration for the convention will be published in the very near future. Also, of course, you can register upon your arrival in Denver. At that time, there will be a Tours Desk located beside the Registration Desk and you can make your tours reservations at that time, if you wish. However, we strongly urge you to send in your pre-registration, along with your reservation for any and all of the tours you wish to take. We emphasize that most of the plans will necessitate accepting a limited number of persons, as mentioned above, and that this will be on a first-come, first-served basis. The registration fee for the convention will be \$3.00. It is suggested that you send this in, accompanied by your check to cover whatever tours you plan to take, just as soon as the pre-registration forms are made available. — LUCILE KEY, Entertainment Committee

Numismatic Vignettes

■ Free advice. One or more of the publishers of Canadian coin books should include a table of weights and metallic contents of these coins. To find the weight of a Canadian silver dollar, I had to go back to the March, 1947 issue of *The Numismatist*.

■ It is hard for anyone today to visualize the chaotic banking situation in this country prior to enactment of the national Banking Act a century ago and establishment of the Federal Reserve System in December, 1913. Lack of uniformity of state banking laws and absolute prohibition of banks in some states for many years engendered some incredible organizations called banks. But among the scoundrels and well-meaning but incompetent men who thrived in this atmosphere were a few honest and able ones, such as George Smith in the Chicago-Milwaukee area. Barred by laws from organizing a bank in either Illinois or Wisconsin, he obtained a charter in 1839 for the Wisconsin Marine and Fire Insurance Company. The charter specifically denied banking privileges, but did authorize the Company to accept deposits and make loans in connection with its insurance business.

The Company did very little insurance business — some say that it wrote only one contract — but for nearly fifteen years its certificates of deposit were the most reliable currency in Wisconsin and Northern Illinois. "George Smith's money" was always redeemable in gold and, in spite of attempts to discredit it, was the commercial life blood of the rapidly developing area. At the outbreak of the Civil War, George Smith retired to his native Scotland, taking a fortune with him and leaving an untarnished name behind.

■ When, under the emergency conditions of the Civil War, our Federal Government began issuing temporary paper money and making it legal tender, there were howls of protest from many segments of the public. This in

spite of the fact that the paper was intended for use during the emergency only and was redeemable in coin. It was denounced as unconstitutional, inflationary, and as undermining our monetary structure.

Something of the extent of this opposition is illustrated by a song sheet which has come to our attention. On March 1, 1863, the Bryants, most popular minstrel company of the time, announced a new program for the next day which included the first performance of "How Are You Greenbacks." It was written by the author of the immortal "Dixie," which, incidentally, was written for the same minstrel two years before the War began. Another version of "Greenbacks" was written later the same year, both assailing and ridiculing the new paper money. We quote the entire second stanza:

"We're coming, Father Abraham,
one hundred thousand more,
And cash was ne'er so easily evok'd
from rags before;
To line the fat contractors purse,
or purchase transport craft,
Whose rotten hulks shall sink be-
fore the winds begin to waft.
With our promises to pay, 'How
are you Gideon Welles, Esquire?'
Promise to pay, Oh, can't you fix
the date?"

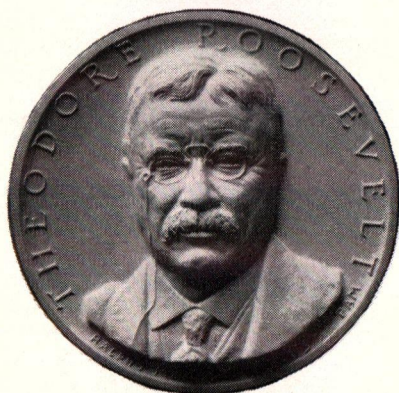

Just one century later, on May 23, 1963, H.R. 5389 was sent to President Kennedy for signature. This bill has several provisions, but the effect is to permit the Treasury to discontinue silver certificates and issue small denomination Federal Reserve notes. Thus the myth of redeemable paper money comes to an end. Hereafter, *all* of our paper money will be "redeemable in lawful money" a vacuous phrase found on all Federal Reserve notes.

In the light of this situation, we marvel at the foreboding of this line in the century old minstrel song: "I hope a present blessing, though perhaps a future foe."

NEW MEDALS OF JEFFERSON, ROOSEVELT

Presidential Arts Medals, Inc., Englewood, Ohio, announces the issuance of new medals, Thomas Jefferson in the Signers of the Declaration of Independence series, and Theodore Roosevelt in the Presidential series. Ralph J. Menconi designed both medals. Twenty-five pieces serially numbered in platinum, 7500 pieces serially numbered in pure silver, and an unlimited number of pieces in bronze will be struck.

AUSTRALIA TO SWITCH TO DECIMAL CURRENCY IN '66

Harold Holt, Treasurer of Australia, announced in April that his country will change over to a decimal system of currency. The tentative date of February, 1966, is subject to whether or not the new national Mint, being built in Canberra, can be operational in time to produce the quantities of new coins needed for the change over.

The new system will be based upon a major unit equal to the present ten shillings. The minor unit will be one-one hundredth part of the major unit and will be equal in value to one shilling two pence in the present system. No fractions of the minor unit will be introduced. The new system was worked out by the Decimal Currency Committee which was appointed in 1959.

The savings in time and effort which will result from the decimal system are expected to outweigh the cost and inconvenience involved. The Government plans to compensate owners of coin machines for the cost of converting them for use under the new system. The familiar halfpenny will be a natural casualty of the new system and will no longer be legal tender toward the end of 1967.

A medal honoring the International Peace Arch has been issued by the **Bellingham Coin Club**. The medal commemorates the sesquicentennial date of the signing of a peace treaty which established an unfortified border between the United States and Canada and established a lasting peace between the two countries. The Arch, located at Blaine, Wash., is unique in that it is the only arch in the world dedicated to international peace. Built in 1921 through the generosity and foresight of railroad-builder Samuel J. Hill, it stands at the westernmost end of the continent and marks 5,525 miles of unfortified border between the United States and Canada. The beautiful monument, Greek Doric in design, towers 67 feet high. The inscriptions engraved upon it, "Children of a Common Mother, Brethren Dwelling Together in Unity," and "May These Gates Never be Closed," reflect the monument's significance and the idealism for which it was built. The medal's issue has been limited to 500 silver and 1000 bronze pieces, and the dies were mutilated after they were struck. Each medal is individually numbered. While the entire silver issue has been sold, a very limited number of the bronze medals remain. These are available at \$4 each postpaid, and may be ordered from the Bellingham Coin Club, P. O. Box 129, Bellingham, Wash. — GARY FERNGEN, Vice Pres.

At the March meeting of the **Bloomington (Ind.) Coin Club**, the following officers were elected: President John Rice, Vice President Oscar Lee, and Secretary-Treasurer Bill Irvin. On the morning of March 31, a new numismatic organization was born and christened the **Great Eastern Numismatic Association**. A group of prominent numismatic men and women met in Atlantic City and elected the following officers and directors: President, Edward Schuman; First Vice President, Harry J. Forman; Second Vice President, Senator James Snowden; Treasurer, Martin Weisman; Secretary, Samuel J. F. Burgdorf; Corresponding Secretary, Robert E. Heller; Governors, Mortimer Nappen (Chairman), Samuel and Marie Burgdorf, Bernard Gimelson, Ray Greenlaw, M. L. Kaplan, and Hazel Naglee. The new organization named Burgdorf "Numismatic Man of the Year" and presented him a suitable plaque. A gigantic trophy went to Irving M. Moskovitz for his best of show exhibit. Within two weeks thirty-four clubs became members of the new Association, and plans were under way for a convention in the Sheraton Hotel in Phila-

delphia on December 13-15. All activities will be on one floor and plans for several innovations have attracted about sixty of the bourse dealers to sign up, leaving room for only ten more. Inquiries may be addressed to Vice President Harry J. Forman, P. O. Box 5756, Philadelphia 20, Penna. — ANNA ROSHOLM, Publ. Dir.

The **Glendale (Cal.) Coin Club** celebrated its fourth birthday at its April meeting. President Edwin Bergolte introduced M. H. Bolender who read a very amusing article which he had written after attending the Glendale "White Elephant" sale. Guest speaker Herbert Bergen gave an informative and timely talk on "U. S. Silver Dollars," which was enthusiastically received. The President presented a plaque to him in appreciation of his visit to us. Auctioneer Tom Wood enjoyed the fun poked at him as much as the audience did. A beautiful birthday cake and refreshments were served, everyone enjoying the festive evening. — IRENE HAMILTON, Corr. Sec.

At its April 15 meeting, the **Santa Barbara Coin Club** elected the incumbent officers to another term, as follows: President Bob Barber, Vice Presidents Harry Kaplan and Mike Ryan, Treasurer Federico Claveria, and Secretary Gwen Sents. Convention Chairman Harry Kaplan reported all bourse space sold and excellent exhibits lined up for our fifth show, June 22-23. Federico Claveria, who was honored recently by the Numismatic Society of Mexico for outstanding contributions to Mexican numismatics, spoke on the Second Mexican Empire. He told us how Maximilian was persuaded to accept the crown offered him by Mexican conservatives, and sailed with his wife, Carlotta, for Mexico in 1864. Claveria stated that the Empire was a failure from the start — Maximilian never fully understood the Mexicans and found most of the country hostile to him and loyal to Benito Juarez. He was executed on June 19, 1867 at "Cerro de las Campanas" (hill of the bells) on the outskirts of Queretaro. Claveria explained that the Maximilian coinage introduced the decimal

system to the country. The Emperor's bust appears on the twenty peso gold, the one peso and the fifty centavo pieces in silver, while the crowned Mexican eagle is on one side of the ten and five centavo silver and the one centavo copper, with the value on the other. All of the issues were struck at various mints except the twenty peso gold which was made in 1866 only at the Mexico City mint. The most valuable of the entire issue is the one peso minted at Guanaajuato. — GWEN SENTIS, Sec.

Plans were initiated for a coin club in Bellevue, Wash., at a meeting held on March 6. On March 26 the constitution and bylaws were adopted, and the following officers elected: President Theodore W. Robbins, Vice President Robert S. Key, Secretary Mrs. Theodore Robbins, and Treasurer Mrs. Robert Key. Since it is located on the east side of Lake Washington, the club was named **East-side Coin Club** to take in the territory of Bellevue, Mercer Island and surrounding towns. Meetings are to be held the fourth Tuesday monthly at the Auditorium of the Washington Natural Gas Co. at Crossroads, N.E. 8th and 156th N.E. at 8 p.m. By mid-April the new club had forty members. Robbins moved to Bellevue about a year ago from the East, where he had been President of the Simsbury Coin Club, Hartford Numismatic Society and the New England Numismatic Society.

The **Aurora (Ill.) Coin Club** began holding its first and third Tuesday meetings in the Valley National Bank Building with the May 7 meeting. Plans are well under way for the Greater Aurora Coin Show to be held November 9-10 at the Holiday Inn just off the toll road on the north side of the city. Birkholz and Jim Grebinger have reserved all public space—much of which has been modernized and redecorated since last year's show—in the Hotel for the show. For further information, address the Club at P. O. Box 167, Oak Park, Illinois. — GERDA BIRKHOLZ, Sec.

Ray O. Lefman spoke to members of the **Kansas City Numismatic Society** March 14 and related his experiences while serving on the 1963 U. S. Assay Commission. He gave a very interesting account of the counting, weighing and assaying of samples from the 1962 silver coinage.

Eighty-eight members and guests of the **Compton (Cal.) Coin Club** heard member Walter Synder speak at the April meeting on "The Large Cent." He had a display of large cents and noted that they were issued each year from 1793 to 1857 except in 1815 when the war shortage of copper caused suspension of the issue. He considers this a challenging series and hopes that others will take it up. Program Chairman John Paradowski presented the Speaker's Trophy to Mrs. Synder who commended her husband for a fine presentation. Display Chairman Kenny Young presented the first place trophy to Wayne Dennis for his "History of the U. S.

Cent," second to Ann Hall and third to Ron Dennis. Other exhibitors were Carolyn Apache, Virginia Dennis, Mel Kohl and Kenneth Young. There were twenty-three entries in the Club Seal contest, with Carolyn Apache being voted the winner.

At the May 15 meeting, Hobby Show Chairman Frank Randall recapped the Long Beach hobby show held May 9-12, and called it a success with a registered attendance of forty-two thousand and one. He showed the Certificate of Appreciation which the Club received for its participation. Mrs. Daisy Synder read the "Quiz" questions and Slim Dunbar checked the answers. Although no one won the prize offered, the program proved to be interesting and educational. The first place exhibit trophy went to Ernest Featherston, second to Kenneth Hill and third to Leona Kohl. Wayne Dennis was given recognition as editor of the Club's first bulletin, which replaces the monthly post card notice of the meetings held the third Wednesday evening monthly in the Compton New Recreation Center. Guests are always welcome. — MRS. M. W. DENNIS, Sec.

Over one hundred members and guests of the **Torrance (Cal.) Coin Club** enjoyed an educational talk at the April meeting on "Copper Coinage." Kenneth Young discussed this coinage from 1200 B.C. in China to the present time, with emphasis on the British "cartwheel" series of 2 penny, penny, half penny and farthing which was struck in 1797 as the first coins produced on steam operated presses. He had a nice display of coins and books from which information can be obtained on the history of copper coins. President Wayne Dennis awarded Kenneth a certificate of appreciation for the fine talk. A unanimous vote of support was given to A.N.A. candidates P. K. Anderson, Matt Rothert, Herbert Bergen, Charles M. Johnson, Ray O. Lefman, Leo Terry, Richard Goodson, William Worth and George Todd. We are sorry to report the death of Horace Bloxam, a truly great numismatist, on April 23. Guests are always welcome to attend our meetings the third Tuesday evening monthly at the Recreation Center, 3341 Torrance Blvd. — MRS. M. W. DENNIS, Corr. Sec.

The **Numismatic Forum of New York** is a coin collectors' club whose members are devoted to the furtherance of numismatic knowledge and interest. It has existed for a number of years, with a membership of private collectors as well as ethical professional numismatists of note. Meetings are devoted to scholarly discussions relating to the background and history of all phases of numismatics. Papers are read at most meetings, often followed by roundtable discussions. Trading and selling at meetings is discouraged, since the greatest portion of the time is spent on subject matter. Our meetings are held the third Thursday evening monthly and are of interest to most seasoned numismatists as well as to beginners. Guests and exhibits are always welcome. Anyone wishing to attend a meeting should write the Corresponding Secretary, 30 Shipherd Ave., Lynbrook, L. I., N. Y., and an invitation will follow by return mail. — OSCAR L. SUSSKIND, Corr. Sec.

The **Rochester (Mich.) Coin Club** has applied for membership in A.N.A. Its meetings are held the second and fourth

Mondays monthly at the North Hill Bowling Lanes in Rochester and visitors are invited. At the April 22 meeting, members of the three-year-old Club re-elected the incumbent officers as follows: President George Hildebrandt, Vice President Michael Kohler, Treasurer H. E. Hotchkiss, Secretary Mrs. Dorothy Bigham, Historian Arthur Smith, and Board Members Dudley Colby and Mrs. Joan Oberg. We have sixty-three active members at the start of our 1963-64 year. — MRS. DOROTHY BIGHAM, Sec.

The **Milwaukee Numismatic Society** is considering the purchase of a suitable camera for making slides of numismatic items. Since this involves an appreciable expenditure, it was suggested that we view the results of slide making by members with various cameras. The March meeting provided a fine example of how something extra on the program can promote good attendance. Ralph Parker, whose outstanding collection of gold coins has won honors, brought his slides and projector. These, together with slides made by Ray Jazwiecki, A. Kellner and W. Boyer, were enjoyed by all and, while quite good, illustrated some of the mistakes that can be made in producing slides. Parker exhibited some of the coins shown on slides; H. Collura exhibited and talked on coins he acquired while on a Mexican holiday; and C. Heller showed a beautiful jade necklace of the Navajo Indians. He also had a string of beads similar to those used in Sikkin, recently mentioned in the press as the scene of the wedding of New York socialite Hope Cooke to the Crown Prince. Our meetings are always interesting and a cordial invitation is extended to collectors to visit us the third Wednesday evening monthly at the War Memorial Building. — WALTER J. BOEYER

W. MacDonald, Fred Rawlings and Chuck Waite. — AL. HOOEGVEEN, Sec.

The **Madison Coin Club** expects its second annual coin show on September 28 and 29 to be second only to the convention of the Numismatists of Wisconsin. Plans are being made to best its 1962 show which was attended by some 2500 persons. A. Gordon Gill, 3614 Spring Terrace, Madison, is the bourse chairman for the show to be held at the East Side Business Men's Club. It is now holding a contest for a club emblem to be used on stationery, membership cards, etc. Other clubs may be interested in the four points made to those who will try for the winning design, as follows: The emblem should incorporate something numismatic, indicate something of the area in which the Club is located, indicate that it is the oldest club in Wisconsin (organized in 1932), and be original. A committee will select the three best designs and let the members vote on the one to be accepted. — RONALD L. CALKINS, Sec.

Ninety members and guests of the **North York (Canada) Coin Club** enjoyed

a talk on medals at the April meeting. About fifty persons attended a special meeting of the **Greene (N. Y.) Coin Club** on April 30 in the Central School cafeteria. The purpose of the gathering was to encourage and help young people in becoming coin collectors. President Comfort introduced Mr. Cornall of the N. Y. State Electric and Gas Co., who spoke on "Modern Coins as a Hobby." He told something of the history and extent of coin collecting, expressing the belief that there are three million collectors over the age of 13 years. His fine collection on display and a flannel graph were used to show various grades of condition and to encourage the young people to buy mint and proof coins. Following the talk was a question and answer period, and presentation of an unc. 1960-D small date cent to each child present as a gift from member Richard Thurber. — MRS. FRANK E. STILES, Sec.

From a charter membership of thirty-three, we have grown in just one year to a membership of sixty. With the coming of summer, we hope that vacationists in the area will visit our meetings the first and third Thursday evenings in the Hospitality Room of the National Bank & Trust Company, Traverse City, Mich. — LARRY WERNETTE, Sec.

Drawing from the Brookings, S. D., and surrounding communities, the **Upper Sioux Coin Club** has grown to a membership of about fifty. A dinner-meeting was held April 8 by sixty-four members and guests of Owensboro (Ky.) Coin Club in celebration of its fifth anniversary. Very nice displays were made in the Cornell Restaurant by D. E. Jones, S. M. Fitts and Dr. M. David Orrahood. After the enjoyable dinner, Hugh O. Potter of Radio Station W.O.M.I. revealed some interesting facets in the life of Dr. Charles F.

Leich of Evansville, the guest speaker. Choosing the subject "Gold Rush and Early Gold," Dr. Leich started his talk by forming a make-believe band of prospectors from the audience and, starting from the local area, used slides to take the group down the Ohio River, up the Mississippi to St. Louis and then overland by way of the Oregon Trail to the gold fields of California. All who made the "trip" called it one of the most interesting and educational history lessons they had ever experienced. Plaques

the B.N.A. exhibit. Over six hundred a day viewed it to make the exhibit a success. Exhibitors were: Gaston DiBello, Jess Taylor, Bruce Bruan, Bill Flvaz and James Barwell. We are already planning another exhibit for next year and hope to have it during National Coin Week. The March meeting of the **Boston Numismatic Society** was designated as a paper money evening and there were some interesting displays of notes. The nineteen present enjoyed a talk by Bart Kosroffian on compound interest Treasury notes. Plans were discussed for our 103rd Birthday celebration to be held in the Sheraton Plaza on April 2. It is with great sadness that we report the passing of Ben Lowenstam, our immediate past president. Ben was one of our most faithful and longstanding

members, and his contributions to the Society as an officer and as a member have been outstanding and memorable. It will be most difficult to adjust to the absence of one with such gentle manners, high intelligence and deep knowledge. — ROBERT R. ANDREWS, II, Sec.

At a recent combined meeting of the **Collectors Club of Boston, Canadian Numismatic Society of New England**, and the **New England Exonumist Society** at the Brookline Motor Hotel in Brookline, Mass., the feature of the program was the display of part of the collection of Art Lovi of Pensacola, Fla. He spoke of his deep interest in the exhibition of coins and paper money, and of the group which he formed recently to further these interests and make for better shows and conventions. Leonard Finn, president of the Collectors Club, presented a check to Lovi to be used in the promotion of better exhibits. A question and answer period followed, and then

The Ontario Numismatic Association held its first annual convention at Vine-land, Ont., on April 26-28. The host, St. Catharines Coin Club, provided an excellent programme of events, and the weather cooperated to provide the setting for the largest coin convention ever held in Ontario. Numismatists attended from all parts of Canada and from the U. S., with Vancouver being the most distant point represented. President R. R. Rekofski of Kitchener conducted the

general meeting for delegates. He reported that the organization has grown to three hundred and forty in one short year and now boasts twenty-one Ontario member clubs. Reports from others indicate that O.N.A. is providing a service to local clubs, and provisions are being made for an even closer coordination. The Speakers Circuit and Audio-Visual extension is being utilized every week, and will be available only to Ontario clubs due to the demand for their use. David Ash, Editor of *The Ontario Numismatist*, reported that other commitments forced him to resign this position. He did an excellent job, but now a replacement is needed. Interested parties may contact Mrs. Ruth Mueller, Secretary of the Association. Dr. John S. Wilkinson of Toronto, President of Canadian Numismatic Association, was presented with the O.N.A. Award of Merit as the outstanding contributor to numismatics in Ontario. A varied programme included coin identification, audio visual, "What's My Coin," bus tours, displays,

bourse, delegate meetings, banquet, and an auction, in which many prices realized were beyond expectations. A 1947 curved gold 7 maple leaf 50-cent piece in proof sold for \$1,500, a 1948 silver dollar brought \$150, and the proof 50-cent of the same year realized \$580. First place in Canadian exhibits, and the Grand Award, went to Delbert Curtis of Owen Sound. Jerome F. Forman addressed the two hundred and fifty banquet guests on gold coin and bullion on the common market, and how it trades in the world. Bob Prince, President of St. Catharines Coin Club and chairman of the convention committee, is to be commended on the excellent way he and his chairman handled the complete show. Their warm reception will long be remembered by all who attended. — BILL ENGLISH, Publ. Dir.

The April 26 meeting of **Regina (Canada) Coin Club** took the form of a "Bourse Nite," with thirty-seven in attendance enjoying the four tables operated by members. Plans were made for the ninety-third meeting in May which is to be family night. — B. A. RENWICK, Sec.-Treas.

The **Missouri Numismatic Society** (St. Louis) has had an active winter and spring, as a recap of recent meetings will indicate. At the February meeting, Alan Wolf staged a "Get-Acquainted-With-Your-Fellow-Club-Member" stunt, with effective and humorous results, and Bill DeClue gave an informative talk on foreign coins. Bill believes that there is increasing interest in this area of collecting, citing the drastic increases in prices of Canadian and Mexican coins during the past year or two. Publications by Neil Utberg and others on Mexican coinage have helped much to awaken interest in this field.

At the March meeting, we had comprehensive reports of several new committees, including one which is functioning anonymously with local law enforcement officers in the resolving of coin thefts in the area. The Society donated \$10 to the Lewis M. Reagan Memorial Fund, and encouraged its members to contribute individually. Program Chairman Bill Zimmerman, in an analytical talk on "The Truth, The Whole Truth, and Nothing But The Truth," cited the improper grading of coins as "the biggest lie in numismatics." He mentioned several ways of grading coins, one being the use of a micrometer to measure wear by the thickness of the coin rim. Another is a system of numerical evaluation, wherein a number value of 100 is established and points deducted at a certain rate for stated undesirable features. President Page appointed charter member and Treasurer John Stevenson to head a committee to plan our Society's 25th anniversary celebration later this year.

At the April meeting, Librarian-Historian Mary Pearson introduced a new monthly Society newspaper to include personal and human-interest items. Arno Meyer gave a most unusual talk on "Stars, Clay, and Man," in which he related how the modern archaeologist can combine information from ancient clay tablets, a study of the stars, and the use of the electronic computer to ascertain new and astonishingly accurate information about past civilizations. He exhibited many odd and curious money specimens and concluded his talk by encouraging numismatists

to pursue this interesting sideline study.

At the May meeting, the nominating committee proposed all incumbent officers as the 1963-64 slate, as follows: President Charles Page, Vice President Mrs. Caroline Boehme, Secretary Mrs. Bernice Stevenson, Treasurer John Stevenson, and Governors Edward Boehme, Sr. (Chairman), Tom Elder, Chris Schlather and Albert Wick. A.N.A. members were enjoined to exercise their voting privilege with care and wisdom in the coming election for officers, and were assured that the Society's ballot will be voted to reflect the will of the majority of its A.N.A. members. The Society went on record as supporting, in essence, the recently proposed TAMS code of ethics. Secretary and Treasurer Bernice and John Stevenson presented a narrative and slide program on the history of the Danish West Indies, with particular reference to the coinage thereof. The presentation was highlighted by some colored slides showing scenes in the Islands, and a display of many of the coins referred to. At this meeting, the Society attained its recently established maximum of three hundred members, with a file of applications awaiting for vacancies to occur. Although we suspend meetings in July and August, plans are forging ahead to make our fourth annual Festival on August 3-4 one of the best ever. It will be held in the Hotel Statler-Hilton, St. Louis, where some 3,500 attended last year's most successful Festival. — BERNICE STEVENSON, Sec.

On April 27, 1813, the little town of York (now Toronto, Canada) fell under the blow of a United States invasion. The brave who died under two flags were laid to rest side by side in the cemetery near the Church of St. John the Evangelist, which is still known as the Garrison Church. Exactly 150 years later, fifty-one members and guests of **Toronto Coin Club** marked the occasion by hearing an informative lecture on "Laura Secord, James FitzGibbon, and the War of 1812," presented by Graeme Bacque, an historical authority of high repute. It was the valiant Lieut. FitzGibbon who, with a small force, bluffed the U.S. forces into surrendering on June 24, 1813, at Beaver Dam; and it was Laura Secord who brought FitzGibbon intelligence of an impending attack. A guest at the meeting was Miss Marjory FitzGibbon, a great-granddaughter of James FitzGibbon and the last of his direct descendants to bear the name. She was wearing, mounted, one of the four known Laura Secord medals. A number of fine exhibits were shown, including those by Graeme Bacque, H. A. Craig, James Fiedler, Michael Goodman (who won first exhibit prize for a superlatively presented exhibit), and Glen Goodenough, who won second prize for a highly creditable display. We note with much pride that Dr. John S. Wilkinson, a fellow member and President of C.N.A., received a gold medal at the recent Ontario Numismatic Association convention in recognition of his distinguished services in the field of numismatics. — FRANCES DOANE, Editor

A question and answer program at the May 13 meeting of **Ventura County Coin Club** was helpful in clearing up questions for many of the eighty-eight members present. The Club is having plastic name tags made for members to

wear at conventions, shows and other meetings they attend. Plans for our third Coin-a-Rama to be held October 27 in the Ventura (Cal.) Recreation Center are well under way. — EVELYN NEWMAN, Sec.

As host to the second annual North Texas and Southern Oklahoma Numismatic Association coin show and auction, the **Greenbelt Coin Club** invites you to attend on July 20-21 in Vernon, Texas. The affair will be held in the spacious air conditioned Community Auditorium without admission charge. Bourse tables will be only \$10, and may be reserved as long as space is available from Ray Coleman, Sec. Treas., Box 1664, Vernon, Texas. Items for the bid board auction, with a minimum lot value of \$2, were submitted by club members in the area before July 1. — HELEN O'STEEN, Publ. Chm.

The **Oklahoma City Coin Club** recently held its 281st consecutive monthly meeting. Always a highlight of our meetings, the exhibits were many and varied. Of particular interest was Dr. John F. Lhotka's Byzantine cup-shaped coins, and the Andorra crown displayed by M. C. Sauer. Another exhibit to make mouths water was M. R. Brown's set of uncirculated Lincoln cents. Since this was our "Ladies Night" meeting, Mrs. Frank R. Silva gave a talk on "Why I Collect Coins." Her very fine talk was made even more interesting by the various coins she showed to illustrate a point or an idea. Chairman Jake Sureck of the O.K.N.A. convention to be held in Oklahoma City in October, stated that all but three bourse tables have been reserved and all plans are proceeding on schedule. The theme for the convention is "A Collectors Convention," and emphasis will be placed on spreading knowledge and encouraging the hobby. Members of the club will join forces to present a display of coins that have been used in America the past 400 years. There will be a display of "Oklahoma Numismatics," consisting of merchants tokens and scrip used in the State of Oklahoma, Oklahoma Territory, and Indian Territory. — VINCENT HILL

The **Interstate Coin Club** has arranged for its fourth semi-annual show on August 31 and September 1 at the Venice Motel Ballroom one half mile east of Hagerstown, Md. This was the site of the March show which drew some 2000 visitors, and the success of the fall show is further assured by having the same experienced committee in charge. The thirty-four table bourse is made up of dealers from six states, most of them having been at one or more of our past shows. We will also have a souvenir booklet, nearly double the size of the previous one, and the same fine security around the clock under the direction of Washington County Sheriff Charles E. Price. All in all, we give you our assurance of a fine show and just hope you will accept our cordial invitation to join us the last day of August and first of September. — PAUL E. GARLING, Chm.

With just over a hundred in attendance at the May 19 meeting of **Lawn-dale (Cal.) Coin Club**, there were eighteen fine displays for everyone's pleasure. Lila Barrett and Joy Parrish tied for first place, with second going to B. B.

Crow, and honorable mention to Minerva Axelrod, Ronnie Dennis and Bill Endman. Richard P. Goodson made a fine talk on "Know Your Coins." — FERN S. CAESAR, Sec.

Walter Snyder gave a very informative talk on "The Large Cent," and backed it up with a fine display. Other displays were by Carolyn Apache, Ron Dennis, Virginia Dennis, Wayne Dennis, Ann Hall, Mel Kohl and Kenneth Young. The contest for a club seal came to a climax at this meeting, with Carolyn Apache receiving congratulations as the winner. It is with great regret that we report the death of Honorary Member Horace Bloxam on April 23. He was truly a numismatist and will be missed by all of us for a long time. — *Compton Coinette*, WAYNE DENNIS, Editor

Society members set up displays designed to educate and inform the public about the hobby of numismatics. The public response was excellent and the group felt proud of its efforts. Dr. Harold J. ADVERTISERS PLEASE NOTE ALL FOLLOWING CONDITIONS

All correspondence relating to advertising should be addressed to the Advertising Manager, S. W. Freeman, P. O. Box 591, Newport, Ark. Make all remittances payable to the American Numismatic Association.

No advertising accepted from minors.

Advertising Contracts: These are available, covering periods of three, six and twelve consecutive months for display space as listed in the above Table of Rates, and are necessary if the schedule of reduced rates is to apply. If the advertiser prefers not to accept the Contract, such reduced rates will be granted only upon payment in advance for the period desired.

References: All advertisers who submit copy for the first time are definitely requested to furnish therewith banking or other satisfactory references.

Available Space Units: Practical considerations restrict the allocation of space units to those listed in the above table. Any amount of space (subject to any current limitation) is available IF these units or a combination of them are used. Unless contrary instructions are given, copy will be cut if found too full for the space designated; if no designation is made, it shall be understood the amount of space is left to the discretion of the Advertising Manager.

Unless under contract, smaller units than one-half page accepted subject to available space in desired issue.

Deadline: Copy must be received by the Advertising Manager by the 5th of the month to insure insertion in the following month's issue.

Illustrations: All cuts to be provided by the advertisers, care being used to see that they do not exceed in measurement the limits of the space unit desired. The Advertising Manager, when absolutely necessary, will have engravings made from furnished photographs, at national rates, to be paid for by advertiser.

We cannot accept mats or stereos.

Miscellaneous: Please furnish copy separately from your letter of transmittal. Advertising copy included in the body of a letter usually has to be retyped for the printer; this should not be required. **Mail Bid Sales listing not acceptable.** It is also the policy of the magazine to limit its advertisements to those of numismatic character.

Preparation of Copy: Advertising copy should be prepared with minute care. Carelessness invites error—something which both advertiser and publisher are anxious to avoid. Use only one side of the sheet. Send originals, not carbon copies. Use only paper of good quality, and not of extremely light weight. All copy must be typed, no handwritten accepted.

In the absence of an Advertising Contract, when payment in advance for any number of consecutive months has been made, if change of copy has not been received by the 5th of the month for the next issue, the latest preceding advertisement will be run.

Advertisers may use a trade name, but, except in the case of an incorporated concern, the name of the proprietor or some other responsible person connected with the firm must also appear in the advertisement.

The right to edit copy, to require payment in advance, and to decline any advertisement is specifically reserved.

WANTED WANTED WANTED

We are very interested in purchasing the following coins and will pay a very good price for each one, or, will pay a suitable commission to anyone who will give us the information where such coin or coins can be bought.

UNITED STATES ASSAY or AUGUST HUMBERT \$20.00 gold struck in GEM PROOF MIRROR SURFACE condition. Although these coins are not listed in the "GUIDE BOOK of U. S. COINS" by R. S. YEOMAN, as struck in GEM PROOF, we saw one in a prominent New York City dealer's office a few years ago, perhaps more than one was struck.

THE CONFEDERATE STATES of AMERICA HALF DOLLAR, struck in a gem uncirculated condition (no restrikes), dated 1861. He have reference to this coin that was shown during the M.A.N.A. Convention in Richmond, Va., around 1957.

1943 Cent struck in copper: This particular coin was attributed to be a genuine cent struck in copper, by none other, the coin expert who worked for a prominent N.Y.C. dealer recently, so described and catalogued in an auction sale not long ago.

We are most anxious to purchase outright for cash, or any information about these most interesting coins. Please don't send coins unless so advised.

World's most popular coin book

What makes this book so popular?—The unequalled high standard of quality in both *content and appearance*.

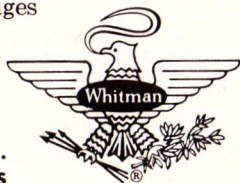

Yeoman's Guide Book of U.S. Coins catalogs the vast field of American coinage from 1616 to the present. It gives you all the basic facts and figures you need to know . . . expertly arranged for quick and easy reference. In its 17th edition you'll find the latest values for all U.S. coins. They reflect the most accurate average of prices used throughout the country.

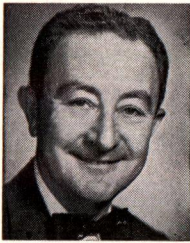

You also *see* the coins you read about because the Guide Book is completely illustrated. It has 256 pages and a gold stamped soil-resistant hard cover.

DO NOT BUY FALSE COINS

If you do, you will encourage the fabricators to redouble their efforts. The eventual result must be complete mistrust of many coins and concern over most coins — your present rarities included.

Announcements will be made as soon as fabrications come to our attention. This magazine is cooperating in every way so you may count on reading it in your *Numismatist*.

The finishing manuscript touches are now being put into a four-author translation by permission of one of the finest coin books in the world, MONEY HISTORY (of Japan) published by the enormous Asahi Publishing Co. as No. 3 in their series of 104 cultural picture-books. The translation is soon to be on the market with copies of the Japanese original. Appended to the translation is to be a list of other Japanese numismatic books in English, a list of metalworking terms and metallurgical coin authentication methods, and a current price list. To be able to use one of the actual coin books of a foreign country by means of a translation is a first class means of getting close to the pulse of collecting there. To learn something of numismatics as it is in practice in a foreign country is a great advantage of commercial and personal value, no matter what kind of coins one likes.

CHECK BLOCK IN COUPON FOR COMPLETE INFORMATION ON AVAILABILITY OF SERIALLY NUMBERED SILVER MEDALS

The Presidential Art Medals program consists of three series of finely sculptured high quality medals, each slightly larger than a half dollar. Presidential Art's Kennedy medal is the only privately issued commemorative medal bearing the President's likeness that is authorized by the President for public and advertising display.

NEW STATEHOOD ART MEDAL HONORS MICHIGAN

Henry Ford was selected by the Michigan Historical Commission to represent the State of Michigan in the Statehood Art series. The Michigan medal promises to be one of the most exciting medals in the Statehood series. The Ford Motor Company has assisted Ralph J. Menconi in the execution of the Ford models. They also have indicated a desire to purchase quantities of platinum and silver medals in addition to the bronze.

The new Michigan medal is offered as follows:

Platinum (Pure)	25 serially numbered pieces.....	\$500.00 ea.
Silver (.999+)	7500 serially numbered pieces.....	\$ 10.00 ea.
Bronze		\$ 2.50 ea.

These BRONZE MEDALS are now available for immediate delivery at the original issue price of \$2.50 each.

A WORD ABOUT OUR AUCTIONS

Coins personally catalogued by French's.

Care used to avoid offering choice pieces in "slaughter" lots.

Adequately insured while in our hands.

Guaranteed prompt settlement 30 days after termination of sale.

Catalogues sent to all active coin dealers and collectors allowing all to bid competitively.

All sales mail bid and then personally attended.

In other words, everything done to get the best prices for your coins.

Since our first auction in 1939 we have sold between one and two million dollars in rare coins. The majority for consignors who have been well satisfied with our prices and service. Many give us repeat consignments. We are now cataloguing our 82nd auction.

NORSE AMERICAN RARITY

Almost every collector of Commemorative Half Dollars has included the Norse American Octagonal pieces.

This consists of both the thick and thin varieties. Many collectors, however, have not seen, nor even heard of, the LARGE Norse piece. It is 3 inches in diameter from corner to corner, and weighs about 5 ounces. Of course, the beautiful silver piece is RARE, as there were only 75 pieces struck. This is only the third piece we have handled in over 30 years of business.

We offer this RARITY, as well as the two regular Norse pieces, both thick and thin, mounted in a special plastic holder, for only \$750.00.

COIN MEDALS . . .

The Magnificent Medals of Real Numismatic Interest

A series of beautifully sculptured, numismatically designed medals commemorating famous coin designers. The Augustus Saint-Gaudens and Victor D. Brenner medals, the first two in the COIN MEDALS series, are now ready for immediate shipment, and the Charles E. Barber medal will be ready in June.

COIN MEDALS are sculptured in very high relief on both obverse and reverse by master artist Robert Schabel, and quality struck by The Metal Arts Company of Rochester, New York. The obverse of every COIN MEDAL depicts the finest medallic work of the artist being commemorated, and the reverse, as shown above, symbolizes his work in coins.

COIN MEDALS are issued in bronze, and in a serially numbered pure silver issue not to exceed 5000. Each medal is three inches in diameter, and weigh close to a half-pound in silver, so they are not to be confused with ordinary coin size medals.

PRICES OF COIN MEDALS

The Victor D. Brenner Medal: Bronze \$5.50, or2 for \$10.00

*To preserve, beautify and
enhance the value of your coins,
we recommend and offer*

Our own product, unequalled for cleaning coins, particularly useful on coins of copper or nickel. Easy to use, rapid and economical. In stores a 4-oz. bottle is \$1.00. The full 4-oz. bottle is now mailed anywhere in the U. S. or Canada for \$1.00.

Our new product. Use it to restore the color of age to coins which have been cleaned. Introduced in 1962 and 15,000 bottles sold in four months. In stores the 4-oz. bottle is \$1.00. The same bottle will be sent by mail for \$1.00, postpaid in U.S. or Canada. "CCD" turns your coins brown, not black.

"CARE"

Recommended for conditioning and preserving coins. Improves appearance and protects against corrosion. The 2-oz. bottle will treat thousands of coins. In stores, \$1.35 or by mail, postpaid in the U.S. or Canada, \$1.50.

"JEWELUSTER"

We have ourselves used and recommended this dip for more than 12 years; principally for removing tarnish from proof and uncirculated silver coins (Commemorative halves, etc.). 5-oz. plastic jar is \$1.00 in stores, or \$1.25 postpaid in U. S. or Canada.

"V. M. CLOTH"

For "high-lighting" and improving appearance of badly worn coins. Valuable accessory when used according to directions. Price: 50¢, postpaid in the U.S. or Canada.

Send \$4.75 for one each of "CCC," "CCD," "CARE" and "JEWELUSTER" (postpaid) and get the "V. M. Cloth" free.

When we say "postpaid" we mean carefully packaged to meet stiff postal requirements, and safe delivery guaranteed.

DEALERS' INTRODUCTORY OFFER: Get six bottles of "CCC" (4-oz.), "CCD," or "JEWELUSTER" for \$4.00 postpaid, or six "CARE" for \$5.40 postpaid. Order six each of the four accessories for \$17.40 postpaid and receive six V. M. Cloths free.

PROOF SETS FOR SALE AND WANTED

A SOUND INVESTMENT

ALL PROOF SETS now advancing in prices very fast. 1950 set has advanced from \$70.00 to \$80.00 in one month's time. 1957 from \$3.75 to \$4.50.

TRY OUR FAST SERVICE. No waiting a week or 10 days to get your orders filled. **WE SHIP ALL ORDERS** within 4 hours after receiving them. If you are in a hurry to buy or sell proof sets then call me on the **PHONE 437-3733**.

WE CAN SERVE YOU BETTER

We are full time dealers in proof sets only (NO other coins) and devote all of our time to this business. At the present time we need all date proof sets very badly. Can handle large or small deals from 1936 through 1963. But it is best to write me stating quantity you have to offer, as some times I might be stocked up on certain dates, especially the late dates, 1959 to 1963. **JUST A WORD** to the new collector as well as the serious collector. If you don't know proof sets, then be sure that you know your dealer. I have been a member of the American Numismatic Association for 19 years. In business for 27 years. Remember that we want to help you, not take something from you.

MAKES COPPER, SILVER, OTHER COINS

BRILLIANT INSTANTLY . . . Safe for proof coins

"After having tested your product for about a month, may I add my name and my partners to the growing list of people who sing your praises. Never before have I seen a chemical do the job of lifting surface dirt off a coin and keeping it off as yours does. We wish to stock this item and use it. BRILLIANTIZE is better than anything else on the market — Believe me, I've tried them all! My partner and I have two large stores." — New York

"I was very pleased with the first coin I cleaned with BRILLIANTIZE (all the rest, too, of course). It is the best coin cleaner I have ever used." — Georgia

"Have used it before and there is no equal or near equal." — California.

"Due to increased sales, we are forced of necessity to carry a larger stock." — Ontario, Canada.

"I was very much satisfied . . . BRILLIANTIZE is by far the best I have ever tried." — Massachusetts.

Our booklet on coin cleaning is free, a copy is included in every BRILLIANTIZE kit. Authors of the booklet include the late Burton Saxton, a leader in the American Numismatic Association, and also a president of the California Association.

Figure You MIGHT Sell???

I am leaving here about July 15 for the midwest and possibly the east coast. This will be in the nature of a vacation and buying trip. My itinerary will be determined mostly by your letters offering me your collection or any worthwhile part for sale.

If you have anything to sell me, drop me a line stating what you have to offer. We are driving so there will be no problem in contacting you, no matter where. If you don't catch me before I leave you will be able to contact me at the A.N.A. Convention in Denver, August 7-10. I will have a booth there and will be staying at the same hotel. Stop by and say hello anyway. My checkbook will be with me just in case you wish to sell.

In the meantime should you have any wants please contact our office in Montrose, California, where you will find the service the way you like it.

FOREIGN COINS

For a good many years now a sustained flow of interesting, fairly attributed and soberly priced foreign patterns, gold, crowns, minor coins, medals, proclamation pieces, etc., has moved through my price lists which come out twice a month.

If you have a collection, hoard or stock of worthwhile foreign material you'd like to dispose of advantageously through competent hands, I'd like to hear of it.

GOOD MEASURE

Everyone likes to receive "Good Measure" in what he buys. This could mean many things, including perhaps honest grading and fair prices.

Sometimes I do not do so well, but at least I try! Many collectors of foreign coins have bought from my lists for many years, and keep coming back for more. There must be a reason!

Please write for my price lists of foreign coins. There is no charge and you might be pleasantly surprised.
